

# FOREST CHEM CHEM

TANZANIA: Tarangire | [www.chemchemsafaris.co.tz](http://www.chemchemsafaris.co.tz)

Chem Chem Philanthropy & Safaris, consisting of Chem Chem Lodge, Little Chem Chem, and Forest Chem Chem, is on 20,000 hectares of privately managed land within the Burunge Wildlife Management Area (WMA), situated between Tarangire National Park in the east and Lake Manyara in the west. Forest Chem Chem is in the south-eastern part of the Burunge WMA bordering over 25km of the Tarangire National Park.

## Location & Access

BY AIR: The closest airport is Kilimanjaro International Airport which is a 3½-hour drive from Forest Chem Chem. There are daily flights into Kuro Airstrip. It is not recommended for guests to land later than 15:00.

The transfer from Kuro is a beautiful 3- to 4-hour 4x4 game drive through the Tarangire National Park. For those with connecting flights out of Forest Chem Chem, it is best to transfer by road to Lake Manyara Airport, 90 minutes' drive away.

BY ROAD: Easily accessed by road from Arusha Airport and Lake Manyara Airport (90 minutes' drive each way).

## Owners & Managers

Chem Chem Philanthropy & Safaris is owned by Fabia Bausch and Nicolas Negre.

Forest Chem Chem is managed by Kara Linck

## Classic Factors

- **Kuongana:** Connect with each other, with the bush, with Africa, with yourself
- **Freedom:** To explore and let go of life's daily stresses
- **Private:** Your very own bush camp in the heart of Tanzania
- **Warmth:** Time spent together over a crackling fire

## Giving Back

Chem Chem Philanthropy & Safaris cares passionately about Tanzania's economic and social development and is proud to contribute to local community development efforts through the Chem Chem Association.

**CHEM CHEM ASSOCIATION:** The Chem Chem Association aim is environmental protection in rural Tanzania by assisting the communities in their ongoing efforts to safeguard their surrounding wildlife and, in the long run, supporting the education system in cooperation with the local people, the teachers and state officials. In consultation with the appropriate authorities, The Association supports the state school infrastructure, offers courses for teachers and helps children to learn more about their local ecosystem through environmental education. Chem Chem believes supporting education and protecting wildlife forms a perfect symbiosis, where Tanzanians determine their own land use, while the local ecosystem with its unique biodiversity stays in balance. The Association also employs and supports rangers who protect the wildlife of the WMA.

**WILDLIFE CORRIDOR PROJECT:** Chem Chem Philanthropy & Safaris is currently working to rescue the last wildlife corridor between Tarangire National Park and Lake Manyara National Park. This is a crucial project because of the ever-increasing human impact on the natural movement of wildlife in the area. It involves working closely with and providing work for the villagers in the corridor, encouraging employment for women and game warden training to ensure the project's success.

## Forest Chem Chem

CLOSED 01 APRIL - 31 MAY
